### **Financial Report:**

Ruth reports that we are \$2700 ahead of where we were last year at this time.

### **Web Page Update:**

The page has been updated regularly. We need to have Archie remove some of the older photos. Our page has grown and will require increased hosting fees if we do not remove some of the pictures.

### **Fund Raising:**

We have seen in the paper that we were awarded a \$15,000 in-kind grant from the city for lane fees.

### **Fall Meet Discussion/ Review:**

The meet went well. The coaches rated the event very positively. Ruth did a great job with Hospitality. The timing went smoothly.

### **Early Release Practice coming to an end:**

Early release practice will end on December 17th as the coaches will be in instruction for Aspen SkiCo.

### **Christmas Camp:**

Our Christmas Camp will be held December 26, 27, 29, 30 & 31. That is a Friday, Saturday, Monday, Tuesday and Wednesday camp. The hours will be from 9:00 AM until 12:00 PM and will cost \$50.

### **School Newsletter:**

Elaine will place an ad for the upcoming swim session in the school newsletter.

### **Coaches Update:**

All is well. We would like to reiterate to new swimmers that our swimming

requirements do in fact mean that they must be able to freestyle for at least one length of the pool. There is some concern that a few of the new swimmers were not ready for the team and need additional swim lessons prior to joining.

**Coaching Transition:**

[Stewart](#) will be teaching the Christmas Camp. He and [Marc](#) will be in discussions regarding what the swimmers are learning currently regarding strokes, etc. so that the transition will be smooth for the swimmers.

**Plea for new officials:**

If anyone is interested in becoming a swimming official, we need to solicit individuals to increase the number officials from our club.

**Please note the date change for the WSL Championship in Montrose:**

It is now scheduled for [February 21 and 22](#).

**The next board meeting will be held [January 6, 2009](#). The meeting venue is yet to be determined.**
